

What's Cooking @ Newman Catholic School

orian

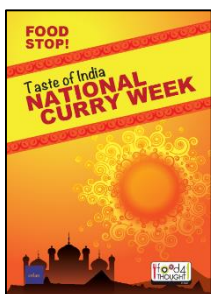

Welcome to Orian

We are delighted to be providing catering and hospitality services at Newman Catholic School. We are truly passionate about the food and service that we provide for both students and staff. Our team will continually look to improve and develop our food offer on site and always welcome feedback and suggestions.

We embrace natural ingredients, love seasonal produce, and develop ethical trading with many of our suppliers. 95% of our products are sourced locally with nearly 30% being produced, grown or reared in Cumbria. We also try to use fish from sustainable sources wherever we can. Our menus are refreshed every term to ensure they reflect the changing seasons and trends from the high street. We fully endorse our fresh food policy meaning that our food is prepared fresh on site daily.

Promotions

We understand the importance of regular promotions and are always thinking of ways to reward our customers. These are examples of some of our promotions and theme days.....
